STUDIO@5

Solar■Powered Production & Creation Hub

Creative Minds Collide • #Imagine #Create #Illuminate

Studio@5 is where touring theatre, TV, film, radio and music projects move from concept to fully realised production.

A purpose-built, solar-powered studio with integrated technical support, Studio@5 combines rehearsal space, production infrastructure and experienced partners under one roof — so your team can arrive, plug in and create.

Why producers choose Studio@5

- First solar-powered studio in Ireland — powered by 100% renewable energy.
- Integrated Cue One technical ecosystem: lighting, audio, visual, staging & power distribution on site.
- Flexible, high-clearance studio with dedicated storage, dressing rooms and production offices.
- Strategic West of Ireland location with fast access to Galway, Dublin, Shannon, Knock, Limerick and Cork.

Location: Unit 5, Claregalway Corporate Park, Lakeview, H91 TP68, Republic of Ireland • www.cueone.ie

Spaces Engineered for Production

Studio@5 is designed as a practical, production-ready environment. Every square metre is planned with rehearsals, builds, tech runs, camera blocking and full production workflows in mind.

Core Studio Footprint

- 420 sq m / 4,520 sq ft – main studio space
- 111 sq m / 1,200 sq ft – office and dressing space
- 308 sq m / 3,320 sq ft – storage (available on request)

Room geometry & clearance
Length: 19.84 m / 65 ft
Width: 21.11 m / 69.2 ft
Height to lowest beam: 7.25 m / 23.78 ft
Height to highest beam: 8.03 m / 26.24 ft
Trussing & motors: available on request for rigging, lighting and overhead solutions.

Access & Load■in

Access to Studio@5 is optimised for both people and kit:

• Pedestrian and small-goods access via double doors into the studio.
• Roller shutter access from Cue One with capacity for 40 ft trucks to reverse into the studio space for fast load■ins and de■rigs.
• External access hatches for cabling from OB trucks and external vehicles.

Floor & Build Policy

The studio floor is a bare finished concrete surface suitable for scenic builds and heavy loads.

• Fixing to the floor is not permitted unless agreed in advance.
• Carpet and other floor coverings can be provided on request.
• Painting and carpentry are permitted but must be discussed with the team beforehand.

Power, Data & Infrastructure

Studio@5 is powered by Pinergy using 100% renewable energy, with usage monitored for transparent billing (please check for latest per■kW rates).

Standard power provision
• 2 × 63 A 3■phase CEE form
• 2 × 32 A 3■phase CEE form
• 1 × 12■way ETC dimmer pack
• 1 × 12■way ETC switch pack
Additional power control and distribution options are available on request through Cue One.

Network & Connectivity

• Fibre broadband available — contact us for current speeds and options.
• CAT6 points provided in each container and at studio level for production offices, video village, streaming or remote workflows.

Kitchen & Day■to■Day Facilities

- Tea / coffee machine for crew and creatives.
- Fridge for catering and on■site refreshments.
- Water cooler (additional units available at extra cost).
- Microwave for crew catering support.

Artist & Crew Experience

Studio@5 is built to keep companies comfortable on longer rehearsals, builds and technical periods, with modular dressing and production spaces.

Dressing & Welfare

- 6 × dressing rooms in various configurations (shipping■container style with character and comfort).
- Each unit includes generous power sockets, heating and lighting.
- 1 × accessible artist toilet plus 2 × standard toilets.
- 1 × thermostatic shower block for cast and crew.

Production Support

- 1 × production office – 6 m × 2.4 m, with additional spaces available on request.
- Washing machine and dryer on site for wardrobe and costume teams.
- A4 laser printer (black & white) with additional printers available as required.
- A3 colour printer for plans, call sheets and visual references.
- 12 × belt■pack & headset units available on request for comms.

Furniture, Layout & Green Screen

- 30 × foldable chairs for flexible room layouts.
- 18 × folding tables – W 0.75 m × L 1.80 m (white).
- 8 × clothes rails for wardrobe / costume.
- 2 × coffee tables and 8 × mid■grey armchairs.
- 2 × two■seater couches (mid■grey) with more furniture available on request.
- 4 × full■length portable mirrors and 2 × full■length wall mirrors.
- 13 m (42.65 ft) × 5 m (16 ft) chroma green screen cloth (wool serge) for camera tests or quick content capture.

Logistics, Parking & Lifting

- 8 × standard car spaces with more available on request.
- 1 × dedicated accessible WC parking space.
- 2 × van / truck spaces.
- Space for outside■broadcast trucks and other specialist vehicles on request.
- Access hatches for cabling externally into the building.

Lifting & Height Access

- 1.5■tonne forklift available on request for load■ins and scenic movements.
- Genie 19/32 scissor lift available on request for focus, rigging and overhead work.

Integrated Technical & Service Partners

Working with Studio@5 means tapping into an established ecosystem of trusted suppliers and service partners — from equipment rental and OB to accommodation, catering and transport.
